

**Dear fellow advocates and allies:**

As you may know, the Microbicide Trials Network announced the results of its HPTN 035 trial on February 9 at CROI (Conference on Retroviruses and Opportunistic Infections).

Please join GCM for an advocates' conference call to be briefed by scientists about the trial. This call will provide an opportunity for civil society stakeholders to discuss the findings (after having had time to absorb the news) with the researchers involved and get answers to the many questions we may have.

**When**

Wednesday, 11<sup>th</sup> February 2009 14:00 GMT (09:00 EST; 16:00 Johannesburg; 15:00 Geneva; 19:30 India)

**What**

The main purpose of this call is to give us a chance to discuss the trial, its results and its implications for the field. The list of invited panelists is still being confirmed but will be led by Salim S. Abdool Karim, Ph.D., from the University of KwaZulu-Natal in Durban, South Africa. Dr. Karim is Protocol Chair of the HPTN 035 trial.

**How do I get on the call?**

See call in instructions below.

**Apologies in advance**

We realize that communicating across time zones and bad phone lines is frustrating and we apologize in advance for any problems the timing of the call presents for those in Asia and Africa and to anyone who tries to join but is unable to.

We will distribute notes from the call to everyone on the invitation list, which should help those who cannot make it or who have trouble connecting.

Sincerely,

Anna Forbes  
Deputy Director  
Global Campaign for Microbicides
